

Gerst

"THE IDEAL BEER"

Dove Brand is pure, wholesome and delicious, made from the finest malt and imported hops. It is aged for months to prevent biliousness and is sterilized beyond possibility of germ life. No purer, more beneficial beer could be had for the home, for all outings and picnics, or on draught. Always call for "Gerst Beer, made famous by the sunny South."

WM. GERST BREWING CO.
NASHVILLE, TENN.

PETER BELL, DISTRIBUTOR, PENSACOLA, FLORIDA.

pack them, the crews will have to take them back unless someone buys them for fertilizer purposes. When the work of packing was begun, it was found that the local ice company happened just at that time to be "shy," and while Manager Heckerl this morning offered to put the fish in cold storage it was too late, the fish having already commenced to decompose.

The loss of the fifty barrels of fish means the actual loss in cash of \$200 or thereabouts.—West Palm Beach Sun.

Japanese Sugar Cane.

W. P. Balkom was in town last Friday and brought a sample stalk of his Japanese sugar cane that measured ten feet and three inches of solid joints. This is the largest that we have seen, and we are wondering what the Fair is going to bring forth in this line any way.—De Funiak Breeze.

The Fair and the Fever.

Howard Cawthon returned Sunday morning from the west end of the railroad where he has been billing the big fair. He could get no further up the Yellow River road than Laure Hill on account of the senseless quarantine at Florida, which according to the Florida News, is a mighty flexible sort of concern, the officials admitting those they choose and shutting out the others.—De Funiak Breeze.

A Gadsden County Kid.

Byron Gregory, the 9-year-old son of Mr. A. S. Gregory of Gadsden county, and a nephew of Mr. William Sauls of the Daily Capital gang, has ninety-five dollars in cold cash for his Christmas money this year. Byron's father gave him a small piece of land near the homestead for a tobacco "patch," with the understanding that if he did all the cultivation and gathering himself that the proceeds would be his alone to spend as he liked. Byron is a nifty lad and he tackled that patch early and often, when not going to school or fishing. The only assistance that he had was that his father did the plowing for him to get his patch in condition for cultivation. There is a moral in this, and it also shows what Gadsden county can do in the way of getting money out of its splendid soil.—Tallahassee Capital.

The Bay Country and Pensacola.

The Bay country which depends almost wholly on water communication with Pensacola is the most affected of any locality in this section by the present quarantine restrictions in Pensacola. The freight boats now have to load and then lie at the quarantine station for five days before coming up the bay. Fortunately the merchants down there have laid in unusually heavy stocks, so that their trade will suffer but little if any inconvenience, unless the situation should become much more serious than it is now.—De Funiak Breeze.

A New Florida Pear.

Mr. G. D. Shaw has a pear tree on his place north of town that is a wonder. It is a LeConte seedling, but differs much from its parent in character and quality. This pear ripens on the tree without getting mushy at the core, has a fine flavor and is sweeter than the LeConte. This pear is as heavy a bearer as the Kieffer, but excels that fruit in every respect—except as a projectile for piercing armor plate or bombarding fortifications. It ripens late, coming into its best showing after LeConte shipments are done. This pear was named the "Florida" by Dr. Shaw and D. L. Pierson, after consultation, and has been propagated to some extent by the Summit Nurseries. There is little doubt that this new pear would become a favorite with proper handling as it is the best table pear ever grown here.—Monticello News.

Hugging His Typewriter.

It is told that in a nearby town recently a local newspaper published a paragraph stating that a certain business man of the town was in the habit of hugging his lady typewriter, and if he didn't quit his name would be published. Before the paper appeared the following week twenty-three business men called, paid up their subscriptions, left orders for twenty-three columns of advertising and told the editor to "pay no attention to foolish stories."

Fair at De Funiak Springs.

From a catalogue and premium list received at the office, we are authoritatively informed that the Gulf Coast Fair and Agricultural Exposition will be held at De Funiak Springs, November 1st to 4th inclusive. The premium list proves to all that they are in earnest and have offered some good prizes.

The DeFuniak Fair will be an exhibition of interest to all farmers and fine stock breeders of Florida, as it will be more of an exhibition of that character than the one held at the fairgrounds. Such fairs are for the education of the farmers of the State; where they can meet and compare notes, also learn what will be the most profitable crops and stock for their respective localities.

The premiums offered for horses, cattle, sheep and hogs, as well as other farm stock, are very liberal and should be an incentive to farmers to enter the competition with the best they can produce. The farmer in Florida will always be the leading spirit in the advancement of our welfare, and the best of everything should be produced by him.

The poultry business, when successfully conducted, should be a paying industry, and this line will receive much attention at the Fair. The premiums in all departments are good, and those who have not received one should address R. W. Storrs, Secretary, DeFuniak Springs, Fla.—Gainesville Sun.

NOTICE

For the benefit of our Warrington and Navy Yard patrons, Mr. John Rance will solicit and deliver any orders given him during the quarantine.

Estate of John E. Lawless, deceased. Creditors, legatees, distributees and all persons having claims or demands against this estate are required to present them to me within two years from this date.

MILTON E. CLARKE,
September 30, 1905. Administrator.

EXTERMINATION OF MOSQUITOES.

An Ordinance to provide for the extermination of Mosquitoes, and to regulate the cutting of weeds.

Be it Ordained by the Mayor and Council of the City of Pensacola:

Section 1. That from the first day of March to the first day of December hereafter it shall be unlawful for any person who shall own, control or occupy any lot, or parcel of land, or premises, in the City of Pensacola, or for the agent, servant, representative or employee of any such person, to allow any vessel, tin can, or receptacle, of any kind whatsoever containing stagnant water, or water in which the larva of the mosquito may exist, to be, or remain anywhere upon such lot, parcel of land, or premises.

Sec. 2. That during the time mentioned in the foregoing section it shall be unlawful for any person who shall own, control, or occupy any lot, parcel of land, or premises in the City of Pensacola, or for the agent, servant, representative or employee of any such person, to allow weeds to grow upon such lot, parcel of land or premises to a height exceeding eighteen (18) inches.

The word "weeds" as herein used shall be held to include all rank vegetable growth which exhalate unpleasant or noxious odors, and also all high and rank vegetable growth that may conceal pools of water, trash, filth, or any other deposits which may be detrimental to health.

Sec. 3. That it shall be the duty of the Board of Public Works to cause to be cut down and removed from all public ways and other public places of the City all weeds which shall grow to the height exceeding eighteen (18) inches; and it shall also, be the duty of said Board to cause to be cut down and removed from any private premises all weeds growing thereon to a height exceeding eighteen inches.

les all weeds growing thereon to a height exceeding eighteen inches whenever the owner of said premises, or other person who is required by this ordinance to cut down and remove the same, fails or refuses to do so.

In the event that said Board shall cause weeds to be cut down and remove from any private premises the cost thereof shall be certified by it to the Comptroller and the same shall be assessed as a special tax against said premises, and shall be a lien against said premises to be enforced in the manner provided by law for the collection of other special tax bills.

Sec. 4. That nothing herein shall be construed as applying to any unimproved lot, or parcel of land, or public way not within the limits bounded as follows: on the North by Gonzalez Street, on the South by Hickory Street, on the East by Tenth Avenue, and on the West by Olivia Street.

Sec. 5. That any person convicted in the Police Court of violating any provision of section one (1), or section two (2) of this ordinance shall be punished by a fine not exceeding one hundred dollars, or by imprisonment not exceeding sixty (60) days, or by both such fine and imprisonment, in the discretion of the Recorder.

Sec. 6. That all ordinances, and parts of ordinances, in conflict herewith be and the same are hereby repealed.

Passed September 23, 1905.
Approved September 23, 1905.

CHAS. H. BLISS,
Mayor.
C. E. MERRITT, Clerk.

TO THE TRADE.

Florida Facts and Fancies

The Fort in Bad Repair.

Sergeant Pate has at times among his visitors to the fort the irrepressible crank who finds fault wherever he goes. Last Sunday a man visited the fort and after learning from the sergeant the place of entrance went to the old fortress and remained about an hour examining everything with the greatest care. He left the fort, then, walked around it and again accosted the sergeant asking him if he were in charge. Sergeant Pate replied that he was, and the man told him very sternly that the fort was in wretched condition and that the sergeant was neglecting his duty. He further advised the sergeant that he would report him to Secretary Hay at once. The sergeant told him he would have a long way to go to submit his report. Evidently the visitor was ignorant of the fact that the Secretary Hay had been dead for several months.—St. Augustine Record.

That Castle in the Air.

The last Legislature appropriated \$25,000 to build and furnish an executive mansion in Tallahassee, but it is still a castle in the air with but little prospect that it will materialize until after the session of the next Legislature. This curious and unfortunate condition of the matter is chargeable to a strange proviso attached to the law making the appropriation for the building. This proviso is that no part of the \$25,000 shall be expended for any purpose until a site acceptable to the commission shall have been "donated." An abortive effort was made by the citizens of Tallahassee to raise money to purchase the site and then they dropped the whole business, taking the very natural position that it was the duty of the State to purchase the site as well as pay for the building and the furniture. It is, indeed, a peculiar law, hardly compatible with the dignity of the Commonwealth, but as its terms are explicit, there will be no governor's mansion at Tallahassee this year nor next unless somebody donates the ground to build it on—something not likely to be done. We get the facts in this matter from the Tallahassee True Democrat.—Live Oak Democrat.

Florida Clam Industry.

A fortune awaited our citizens for years, but they failed to grasp the opportunity. About a year ago a party of business men took a cruise around our waters as far as Marco, on an island a few miles from here, on their yacht, and observed a great chance to make money by building a canning factory and putting up clam chowder and clam bouillon. On their return to New York they immediately sent down machinery for the factory, which took nearly a month ago. They also sent their yacht to ply between this and Marco. This week the yacht brought the first shipments, over 500 cases of their product, to be sent to New York by the Mallory Line. The clams in the vicinity of the plant are inexhaustible.—Key West Advertiser.

Experience of a Census Taker.

Capt. M. Johnson, has some funny experiences to relate in his work of taking the census of Lee county. "Where were you born?" he inquired of one old lady. "In Florida," was the reply. "Where were your parents born?" "Don't know." "Were they born in Florida?" "No," replied the old lady; "I think one was born at Nocatee and the other at Orlando."—Ft. Myers Press.

A Noted Seminole Dead.

The Ft. Lauderdale correspondent of the Times-Union says: "A letter from Tom Tiger to Frank Jumper tells of the death of Ocheshachee, one of the oldest Seminoles in the Everglades. Ocheshachee was better known among the white people as Old Doctor, and was a typical Indian in every way, and ranked high in the councils of the Seminoles.

"Old Doctor was well known by a large number of white people, and his many friends will regret to hear of his death.

There are only a few of the old Seminoles now living in the Everglades which has been their principal place of living since the days of Abseeyohola, Osceola, the great chief and warrior.

"Among those who can relate the history of the years from 1837 to 1855, there Old Tallahassee of Cow Creek, Old Nemathie of Big Cypress and Old Billy Harney of Miami village.

During the past four years four of the oldest have died. John Jumper of New River, Tommy Tiger of Miami River, Hotakeyohola of Big Cypress and Ocheshachee of Miami River.

"Old Doctor was about 6 feet 4 inches tall, and would weigh about 170 to 180 pounds, and in carriage was erect and straight as an arrow.

"His features were above the average, and he was very intelligent, and enjoyed a quite conversation, and took a great interest in the probabilities of the future welfare of the Seminoles.

Big Naval Stores Deal.

Another deal of more than ordinary importance in naval stores circles has been consummated in this city. C. W. Chase having purchased from J. B. McDonald his immense naval stores interests situated at Fairbanks, and embracing an area of several thousand acres of fine timber, and twenty-three crops in operation. This is one of the most extensive turpentine farms in Alachua county. It was established about five years ago by B. F. McCall, who, after working the same a couple of years, sold the property to J. B. McDonald & Co. Mr. McDonald acquired eventually the entire business, and has been operating it continuously until the transfer was made to Mr. Chase.—Gainesville Sun.

Lost Fifty Barrels of Mullet.

Mr. John B. Beach, of the East Coast Fish Company, is not in the very best of humor today, and his feeling cannot be attributed to ill health, either.

The cause of Mr. Beach's troubles is the loss of fifty barrels of mullet. Yesterday was "mullet day" with East Coast Fish Company, the crews bringing in fully fifty barrels of the fish. For a lack of sufficient ice to

JOYS OF MATERNITY**A WOMAN'S BEST HOPES REALIZED**

Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look forward to children and lonely old age. Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

The question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:

My Dear Mrs. Pinkham:—

"During the thirteenth part of my married life I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my headaches and backaches left me, I had no more bearing-down pains, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it.

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

Mrs. Anna Potts

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs.

That question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:

My Dear Mrs. Pinkham:—

"During the thirteenth part of my married life I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. UNIVERSITY OF THE STATE OF FLORIDA.

Embracing the following subjects:

I. Language and Literature—A four-year course leading to the degree of Bachelor of Arts, Greek is not required, but is offered as an elective throughout the course.

II. General Science—Divided into three courses; I. Chemical course; Mathematical course; Natural History course. No Greek and only entrance Latin is required in these courses. All four-year courses.

III. Agriculture—Four-year and two-year courses.

IV. Engineering—Four-year course in Mechanical, Civil and Electrical Engineering, also a two-year course in Mechanics. No Latin or Greek is required in III. or IV. The full course under II, III, and IV, lead to the degree of Bachelor of Science; the short courses to a Certificate of Proficiency.

V. Pharmacy—A full two-year course to be begun in September, 1906.

VI. Normal—Three courses for teachers: A one-year course leading to a certificate, A three-year course leading to an L. I. Diploma; A four-year course leading to the degree of Bachelor of Pedagogy.

An ample corps of competent teachers. A high curriculum—Expenses including board, \$120 to \$150 per year. Fall term opens September 27, 1905. Send for Catalogue.

ANDREW SLEDD, President.

Lake City, Florida.

THE PENSACOLA CLASSICAL SCHOOL

OPINION OF EDUCATORS AS TO ITS WORK.

Prof. Walter Miller, professor of Greek in Tulane University, after visiting the classical school, wrote the following unsolicited opinion to a friend and colleague:

"The Pensacola Classical School is doing a splendid work for the cause of southern education. It is established upon broad principles, it cherishes the highest ideals of scholarship; it maintains a high standard of excellence; and by the best modern methods and equipment it secures thoroughness of training comparable with that afforded by the great fitting schools of the east. To my mind the Pensacola Classical School is one of the very best secondary schools of the south."

Dr. Venable, president of the University of North Carolina, writes: "It gives me pleasure to testify to the thoroughness of the preparation of the students who have come from your school to the university. We should be glad to have more of the same type."

Dr. Geo. Petrie, professor of Latin and History in the Alabama Polytechnic Institute, writes: "I consider the Pensacola Classical School one of the best fitting schools in this section of the south. I can confidently endorse the thoroughness of its work and the healthy, manly atmosphere that pervades the institution."
